- ☐ Spotted owl

FREE SPACE

Field Journal Observation

Find a place to sit and observe the environment around you for **1** minute—visit the forest, bird aviary or find another quiet location.

**Today the weather is:**

My location is:_____

_____

I hear:	I see:

| I smell:	I feel:

Friend of the Forest

Find an animal at the zoo that lives in the redwood forest. Can you answer these questions?

1. What is the animal's common name?_____

_____

2. What does the animal eat?_____

_____

3. What eats the animal?_____

_____

4. Where does the animal live in the forest?_____

_____

Track Mysteries

Visit the tracking station in the **Secrets of the Forest .** Uncover the tracks on the table and discover the animal they belong to using the clues on the sign.

Now <u>make up</u> a story about at least two of these animals. Describe what they were doing when they left their tracks behind.

Be creative—
draw a picture or write a story.

The Spotting Scope

Choose an animal featured in the Canopy Field Guide at the Spotting Scope Station in the **Secrets of the Forest**.

Which animal did you choose?_____

Write <u>2 </u>things you learned about this animal:

1._____

_____

2._____

_____

Draw a picture of the animal:
